

Definition of a Secondary Player

- Secondary players shall be used to supplement teams with small rosters due to low registration, loss of players due to injury or to fill spaces of players that are primary to another club (ex. Reading Rage, FC Revolution) and have a scheduling conflict.
- Secondary players shall come from the age group below. This is due to the fact that teams within the same age group play games on the same day.
- As per RBJSL rules, secondary players **MUST** play for their primary team if they play as a secondary that week.
- Secondary players do not have to attend evaluations for the age group they will be a secondary player for.
- If there is a difference in registration fees from the players' primary age group, the player will only pay one fee, the higher of the two.
- Prior to registering a player as a secondary, the coaches of both teams must contact their respective Commissioner(s).
